

Origami Book Mark

Materials needed

- Origami paper (wrapping paper is also a good option)
- Scissors
- Small ruler or straight edge

Start with a square of origami paper. You can use other paper such as wrapping paper. The thinner the paper or lighter weight the easier it will be to fold multiple layers. A 6" X 6" square is a good starting size.

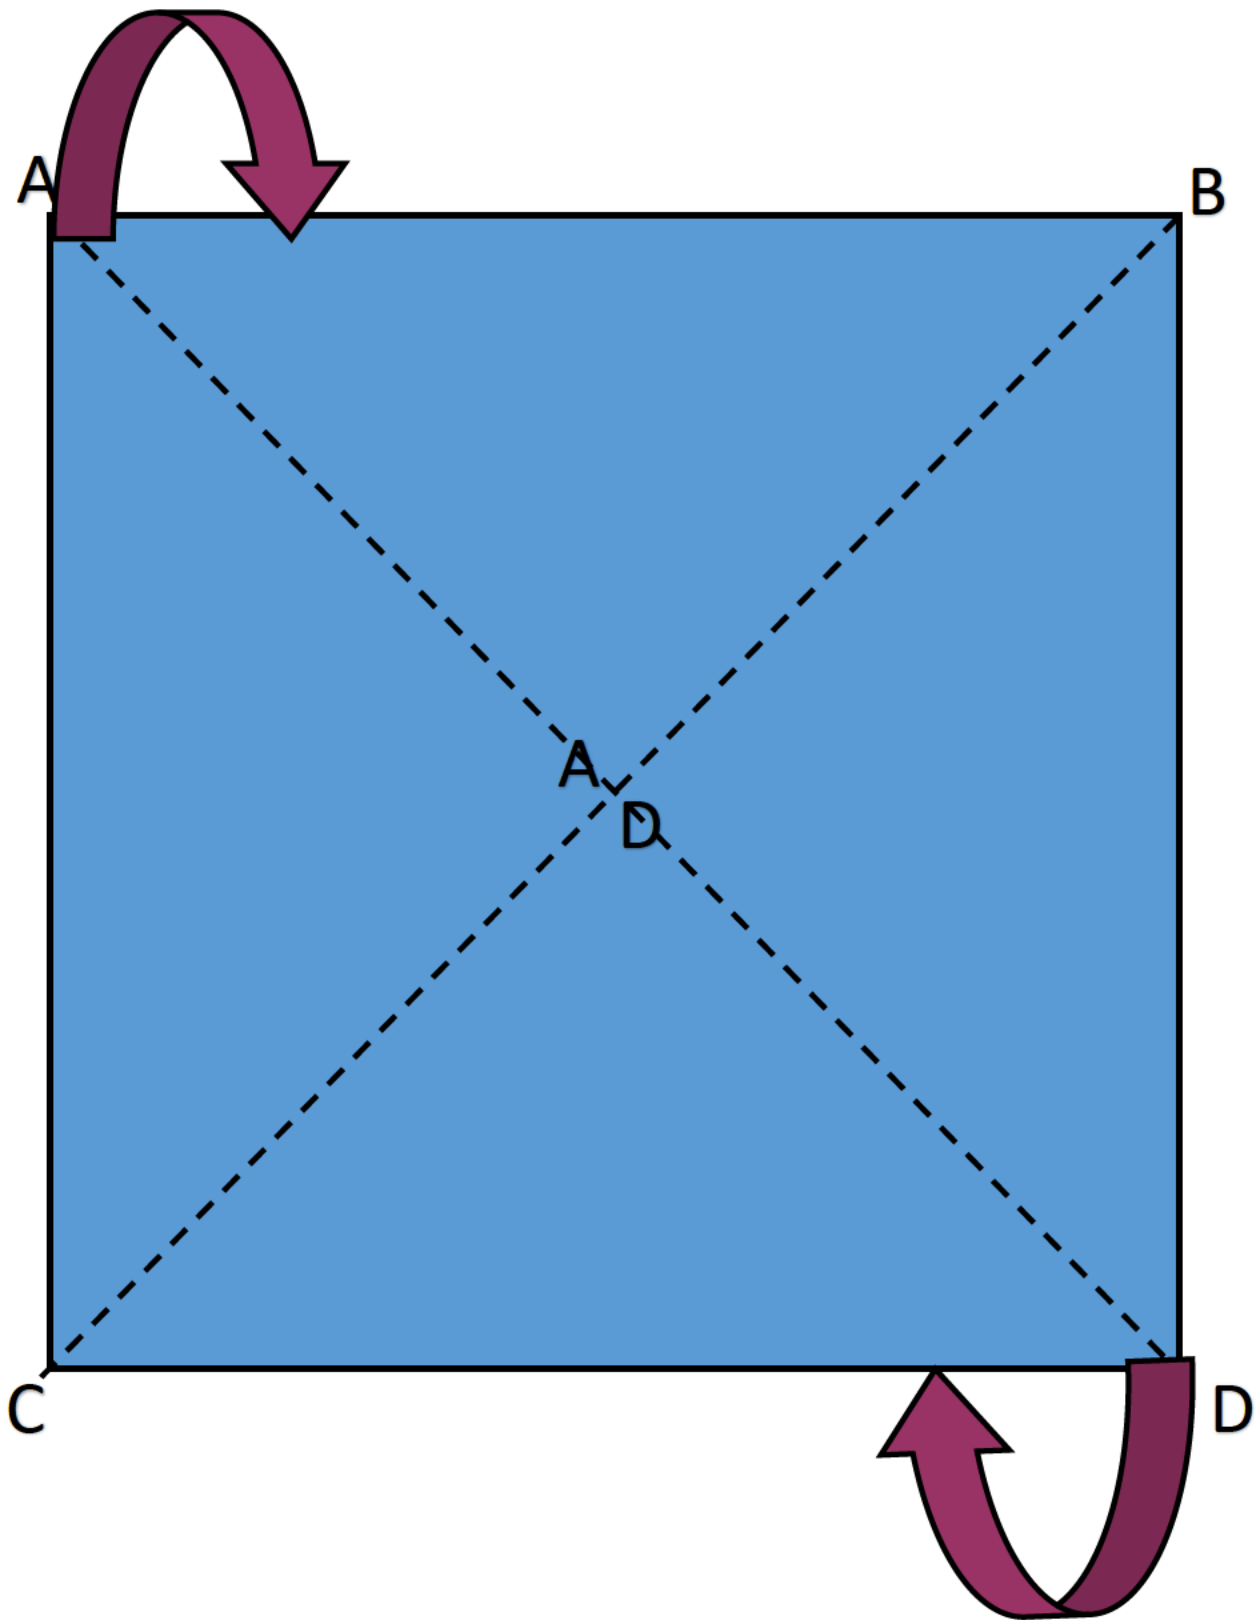

Step Two— Fold the square in half diagonally to create a triangle.

Unfold the triangle and fold the square in half diagonally again matching the other two corners to create a triangle in the other direction. Then unfold again. You should now have crossing fold lines like so

Fold corner points A and D to the center where the fold lines cross. The two points should meet exactly at the center.

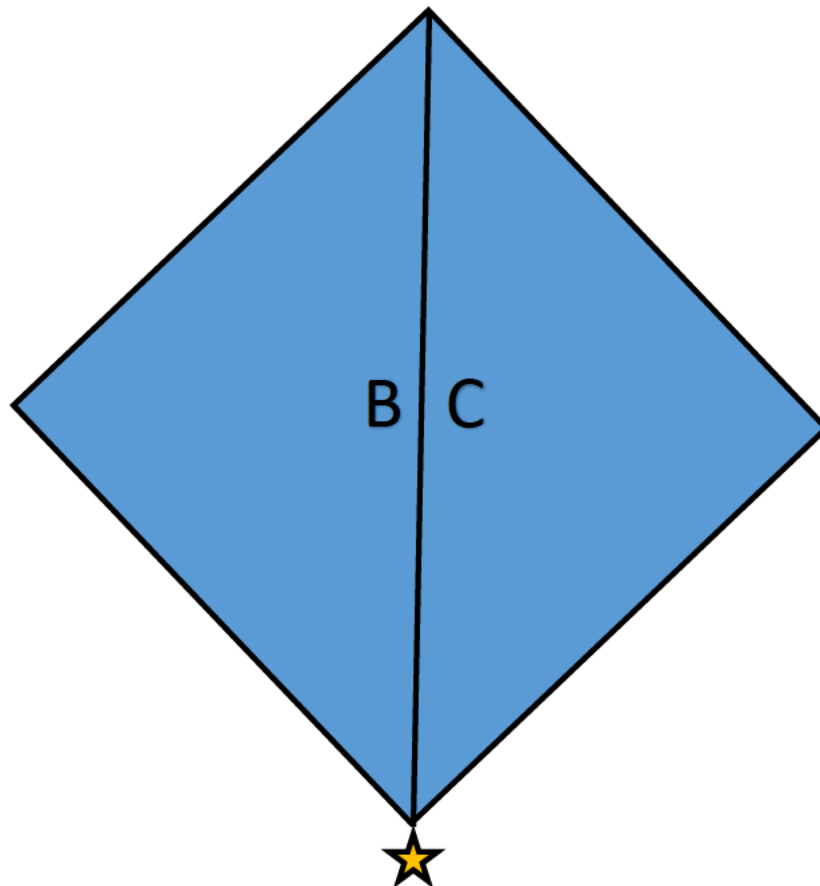

Fold corner points A and D to the center where the fold lines cross.
The two points should meet exactly at the center.

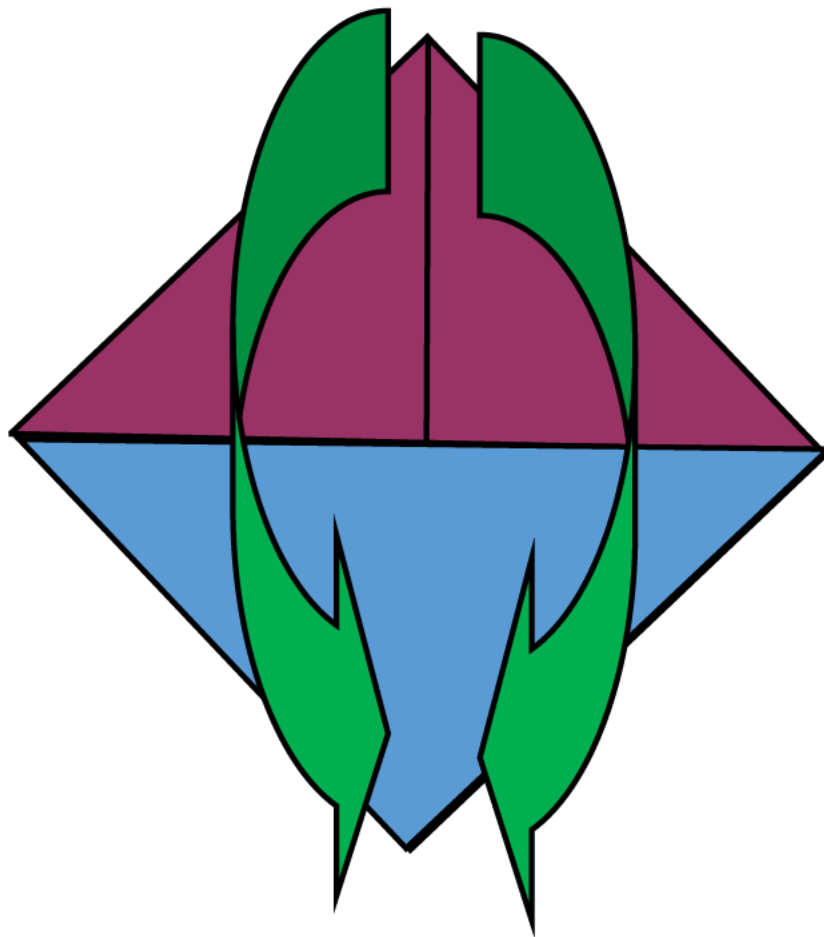

Fold along the C—B line with the points on the inside

Match the B fold edge to the center fold line starting at the star. The point will go past double open fold edge
Do the same with the C fold edge.

Turn the square so that the cross fold is up and the two tabs are on the backside. Gentle open the cross fold to reveal the pocket. Tuck each tab corner into the pocket so the points meet at the bottom of the pocket. Firmly cease the folds.

Your book mark is now complete! Place it on the corner of any page to mark you place. Use multiple book-marks to mark memorable passages.
