

# Flat Bill

**Bill Nye** is an American science educator and mechanical engineer best known for hosting the television program **Bill Nye the Science Guy**. DMSFFS Loves Bill and science. DemiCon 31 invites your family and those young at heart to join this fun activity in taking Flat Bill on an adventure.

Color Flat Bill and cut out along the dotted line. Take him on adventures in your house or on your exercise walks. Photos are a must and then share them on social media with all of DemiCon.

Please keep photos G and PG. Thanks.
