

Flat James

James Koro is a Trans-Iowa Canal Company honorary acting member though he is known for his parts in movies where you never see his face. Wait... you never see his face... does this guy really exist or is he just so good at his job we don't even know what he looks like?

Color Flat James and cut out along the dotted line. Take him on adventures in your house or on your exercise walks. Photos are a must and then share them on social media with all of DemiCon. Please keep photos G and PG. Thanks.
